Additional materials: Electronic calculators must NOT be used. Geometrical instruments may be used.

INSTRUCTIONS: Answer all 30 questions. Show all working. The number of marks is given in brackets [].

1. Expand and simplify $6(x + 2) - 2x$. [2]

2. A school jersey costs \$80. The price rises by 25%. Find the new price. [3]

3. Express 36 as a product of its prime factors. [3]
